How I think I am going:

SportStart

My comment:

I don't normally like sports but I've been enjoying practising fielding and hitting the ball into space. I still need a little help with getting onto it. I actually love it. There is a lot to think about.

How Kelly thinks I am going:

Her comment:

I am so pleased you are enjoying fielding and striking. You have been an awesome team member as you are focus, you think carefully about where the ball is going and are in your ready positions for both striking and fielding. I am very proud of you!
